(54) CONTAINER FOR WET TISSUE PAPER

(57) Abstract:

PURPOSE: To make a container available for easy insertion of fingers therein, and to make easy pick-up possible for taking out of wet tissue paper contained in the container.

CONSTITUTION: A wet tissue paper container 10 is composed of a container body 11 and a cover 20 that is fitted onto the container body 11. The cover 20 is equipped with a cover body 21 that seals up the upper opening of the container body 11, and a take-out port 24 is formed to the cover body 21. The take-out port 24 is composed of one first tab and a pair of second tabs 26a, 26b, and is formed approximately in an M-shape.
